Treasurer's Report 2021

Introduction
This report details membership and subscription data for the calendar year-end 2021. The 2021 fiscal year-end audit report will be posted online separately in the Fall of 2022 after the auditors have completed the annual process.

In 2021, the total number of IMS members increased, but the total number of paying members decreased. Subscriptions by institutions increased this past year by less than 1%. The financial status of the Institute continues to be stable and strong, and actions are in place to ensure its long-term stability. In 2021, the IMS experienced loss of membership due to COVID-19 and the inability of those in some regions to renew their membership. We continue to keep a close eye on these items in 2022. Details of the events of the past year, membership and subscription data, and sales data are given below.

Membership, Subscription, and Sales Data

Membership Data

Table 1 presents the membership data back to 2017. Total individual paid membership in the Institute as of December 31, 2021, increased by 3% from December 31, 2021. This is due to an increase in student (non-paying) members. Paid membership decreased by 16%. This is largely due to the fact that members in China were not able to easily renew their membership as they have been able to do in years past. Prior to 2021, members in China renewed their membership during the IMS China meeting. Since there has not been a meeting since 2019, they were unable to easily renew.

Geographic Distribution of Members. The IMS membership is currently distributed as follows:

- 50% North America
- 24% Asia
- 21% Europe
- 2% Australia and South Pacific
- 2% Africa
- 1% South America & the Caribbean

Selection of Journals by Members: Print subscriptions by members stayed steady in 2021. IMS members receive free electronic access to all journals. Members are charged actual cost for print copies of journals, so there is no net loss or gain to the bottom line from changes in print subscriptions by members. Table 2 shows the current selection of print journals by members.

The IMS offers joint membership opportunities with the following societies:

- Association for Computing Machinery (ACM)
- Applied Probability Society/INFORMS (APS/INFORMS)
- Bernoulli Society (BS)
- Indian Society for Probability and Statistics (ISPS)
- International Chinese Statistical Association (ICSA)
- International Society for Bayesian Analysis (ISBA)
- International Statistical Institute/Bernoulli Society (ISI/BS)
- New England Statistical Society (NESS)

Institutional Subscription Data

Table 3 presents comparative subscription data for institutions to each of our scientific journals for 2021 and previous years. Institutional subscriptions for the journals stayed steady in 2021 with the exception of the IMS Bulletin which is available freely online. Approximately 58% of the institutional subscribers to IMS journals are in USA and Canada, with the remaining subscribers distributed throughout the world.

Book Sales Data

Table 4 presents sales data for all IMS book series. In 2010, the IMS published its first volumes in a
cooperative arrangement with Cambridge University Press to publish two series, *IMS Monographs* and *IMS Textbooks*. Sales of these volumes are going very well.

**Financial and Audit Report**

The fiscal year ended December 31, 2021. The external audit of the IMS will be completed in August 2022. The full audit report will appear online at https://www.imstat.org/council-reports-and-minutes/.

**Conclusion**

The IMS Executive Committee has reviewed all data in this report. A long-term financial plan is already in place and the IMS continues to be strong and stable financially.
